EXPERIENCE

Web Developer

July 2024 – Present

Freelance at Miên Tây Quán

Mississauga, ON

- Designing and developing a website following **UI** and **UX** design principles to create a user friendly website that will advertise a local Vietnamese desserts business
- Following **design requests** given by the client and implementing them into the website in order to provide them with their desired product

PROJECTS

Matchify Web App | TypeScript, React, Python, CSS

March 2025 – Present

- **Cooperated** with 3 peers at the CuHacking6 hackathon to design and develop a full-stack web app that aims to connect like-minded music enjoyers
- Integrated **Spotify API** to fetch users' music listening data and **Nebius API** in order to utilize AI for matching users' with others
- Co-lead the team by **delegating** tasks and guiding the team using **Scrum** and **Agile** methodologies

Job Tracker Web App | TypeScript, MongoDB, Express.js, React, Node.js, TailwindCSS

Oct. 2024 – Present

- **Collaborating** with 4 peers to design and create a web application that can track job applications and update their status based on information **scraped** from their emails
- Utilizing **Google Cloud Platform** to add email integration using the **Gmail API**
- Implementing the **MERN** stack to build a **robust** and **scalable web application** that is accessible, reliable and safe

Personal Portfolio Website | HTML, CSS, JavaScript

Dec. 2024 – Feb. 2024

- Designed and developed a personal portfolio using **UI** and **UX** design principles to create an expressive and intuitive website showcasing my skills, projects, and more
- Implemented **JavaScript** functionality to create responsive and dynamic webpage components that bring the website to life
- Links: kinhvin.github.io/Personal-Portfolio, github.com/kinhvin/Personal-Portfolio

Carleton Web Portal Redesign | HTML, CSS, React, TypeScript, Express

Oct. 2024 – Oct. 2024

- Led a team of two peers in a challenge-based hackathon to successfully redesign the Carleton web portal, focusing on design aesthetics, user experience, and functionality
- Prioritized front-end development by improving the **UI** with enhanced visuals and functionality to deliver a more intuitive and clean user experience
